## **Postpartum Placenta Service Contract**

### **Client Responsibilities**

Placenta encapsulation services will be provided to you, by Doulas of Greater Lafayette, LLC at the rate of \$250. This is payable in full at the signing of this contract. The fee will be deposited upon completion of service. In the event that you agree to have your placenta sent out for testing or it is sent without your approval, the full fee of \$250 will be refunded.

Client is responsible for tolls and parking fees incurred by the Postpartum Placenta Specialist.

Client is to make arrangements in advance with the birth facility for release of her placenta. Contact us if you require assistance or direction with this.

Client is responsible for transporting the placenta from the birth facility to her home where the encapsulation will take place.

Client will properly package and store the placenta for transport. The placenta is to be double-bagged in gallon-sized freezer bags and kept cool either in a refrigerator or on ice. If it is not possible for the placenta to be encapsulated within the first 48 hours after birth, keep the double-bagged placenta in the freezer. The placenta is to be defrosted in the refrigerator 24 hours before preparation.

Please notify Doulas of Greater Lafayette, LLC (260) 450-2713 within 12 hours of the birth to make arrangements for service.

Client must contact the Postpartum Placenta Specialist if there is a power outage in the home during the dehydration process.

### **Process**

Your encapsulated placenta will take 2 consecutive days to prepare. All preparation will take place in the client's home. The specialist requires approximately two hours each day. She will need use of your sink, stove, and some counter space. She will leave her dehydrating equipment plugged in on your counter top overnight. On the 2<sup>nd</sup> day she will complete the process by grinding the dehydrated placenta into powder form and encapsulating. You will receive usage information with your encapsulated placenta and your Postpartum Placenta Specialist will answer any questions that you have. There is no guarantee as to how many capsules your placenta will yield. You can expect between 75-250 capsules. The amount of capsules varies as does the size of the placenta.

### **Limitations & Disclaimer**

Client Initials \_\_\_\_\_

The benefits of ingesting your placenta have not been evaluated by the Food and Drug Administration. Your encapsulated placenta is intended for ingestion only by the mother that birthed it. There is no guarantee that the ingestion of your placenta capsules will yield the desired result(s). The Postpartum Placenta Specialist is not a licensed medical professional, and cannot make any diagnosis or suggest treatment. The client takes full responsibility for her health and the research and use of their encapsulated placenta.

**Please Initial Each Line Below**

- I understand that no guarantee of results is either offered or implied \_\_\_\_\_
- I understand that my Postpartum Placenta Specialist is not a medical professional and does not diagnose or treat illness \_\_\_\_\_
- I understand that general guidelines for placenta capsule usage are provided for reference only and I trust in my own ability to follow my body for actual usage decisions \_\_\_\_\_
- I ascertain that I have no blood-borne diseases that have not been disclosed in writing to my Postpartum Placenta Specialist \_\_\_\_\_
- I release my Postpartum Placenta Specialist from any and all liability resulting from the consumption of my placenta \_\_\_\_\_
- Equipment failure is beyond the control of the Postpartum Placenta Specialist \_\_\_\_\_

I have read, understand, and agree to the terms described above. I certify that all information disclosed above is accurate.
